## THE TWO MOON CONCEPT

*one time shows*

As an artist, I often found myself with a body of work but without a venue for a show. Very rarely was I able to find a gallery to host a one-time show. Unfortunately, when I did, they would require a 40% to 50% commission. This practice is not only commonplace, but also standard in the gallery industry. It hardly seemed justifiable.

Many shows and galleries later, I opened a contemporary gallery in the 12South District of Nashville. In addition to representing artists on a full time basis, I felt our gallery needed to be open to other artists who are searching for a venue for their next show. And more importantly, I want to provide this venue in a very affordable manner. It is also necessary for us to provide the artist with the essential tools for a successful show.

In order to achieve this, Two Moon Gallery provides a new perspective on one-time shows.
