CALLING COAST TO COAST

Each issue we ask leading galleries coast to coast to tell us what's hot in their gallery and to identify the trends in their city.

Hal Pickett
Nashville, TN

"Our buyers have been looking for subjects with a soul."

Our artists who have commercialized their works on the foundations of nature have sold well lately. Many of our artists have added other styles to their foundations to create a comprehensive identity.

Wildlife and figurative pieces have been popular as of late. Our buyers have been looking for artists with a soul.

Real Falls, Nancy Schwanke and **Wild Klones** have been creating beautiful work lately and attracting a lot of well-informed attention in our gallery. We will be having a show featuring Real Falls' work September 1.

Linda Seltzer is our current artist of the month. Her working messages have been attracting quite an audience.

"The gallery provides an opportunity to discover the next generation of emerging artists..."

The Blue House Art Gallery is a new gallery recently located in the heart of southeastern Massachusetts between Providence, Rhode Island, Boston and Cape Cod. Owen Robson (I, Tates and Thomas Gil Corvath) opened the gallery providing modern, traditional, impressionist and contemporary piece transactions already welcomed.

Since opening, we like by **Carole Raymond**, landscape scenes by **Gil Corvath**, and local interest paintings of the New England coast by **Francis Macey** have been selling well.

The gallery provides collectors with an opportunity to discover the next generation of emerging artists or add to their holdings of well established artists such as **Andrew Rausch** and **Edwin Cud** and emerging local artist **Wade Whittier** belongs.

"...we are selling pieces that bring joy and life to our clients' surroundings."

COCA gallery is thriving. CoCA is the art market in Park City as a whole. Not only do we have two strong sources of visitors, but also many people are making the area their primary or secondary residence.

We have had great success with local artists **Janet Pitts**, **Rae Smith**, **Rebecca Brown**, and **Wanda Chikman**. **John Kennedy** has been fortunate to be a gallery favorite with **Ray Phillips'** abstract landscape scenes and **Doug Adams'** fine and functional folk. Fine artists include photographer **Camryn Gault**, painter **Yuki Smith**, and mixed artist **Mychael Mural**.

As always, lots of COCA visitors are selling pieces that bring joy and life to our clients' surroundings.

Ella Richardson
Charleston, SC

"...the last several years we have been seeing sales rise with our stockpiled scenes..."

There will always be buyers who appreciate quality and discerning collectors will want to purchase fine art. 2010 was our best year in the past decade because we carry extremely talented artists whose works have continued to increase in value, despite the economic hard times our nation has seen.

Landscape art always was No. 1 sales, but the last several years we have been seeing sales rise with our message scenes, which often include figures. **Jeff Jankovich** impressionistic watercolors and **Erinley Goodwin** more realistic figures continue to have consistently been one of our top sellers. Other popular artists include **Lynda** and **Richardson Thomas**, **Craig Nelson**, **J. Christian Smith**, **Scott Mowry**, **Naughton Brown**, and **Lynda** and **Erinley Thomas**.
